

## Fill the Nutrient Gap Analysis - Ethiopia

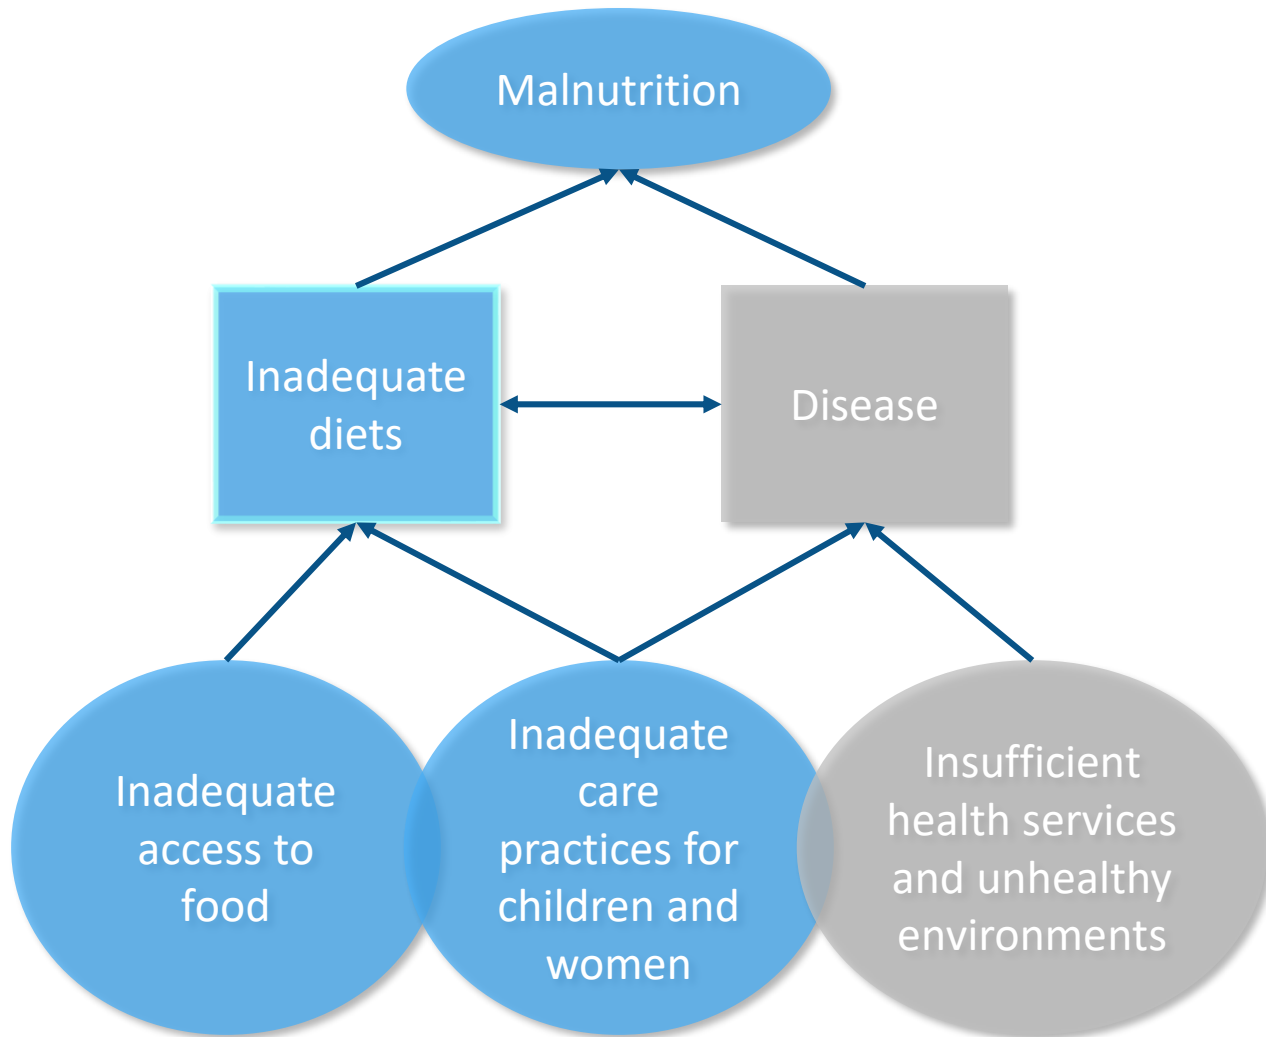

KFW

# Outline

- Overview of FNG
- Why FNG
- Deliverables
- Funding
- Roadmap
- Current/Planned interventions from stakeholders?

# Overview of FNG

**A healthy diet that meets nutrient requirements is a prerequisite for preventing malnutrition**

- Continuation of Cost of Hunger
- Aims to identify barriers to adequate nutrient intake
- Pathway of “inadequate access to nutritious foods” due to economic constraints

# Overview of the FNG

Consultations with stakeholders

## Secondary data analysis

Are nutritious foods available, accessible & chosen for consumption?

- Information on Food Systems, Health Systems, Social Protection Systems
- Databases, reports, peer-reviewed articles

## Cost of the Diet

What does a nutritious diet cost & is it affordable? How much environmental footprint is there?

- Food prices,
- Household expenditure Survey
- Food Consumption Survey

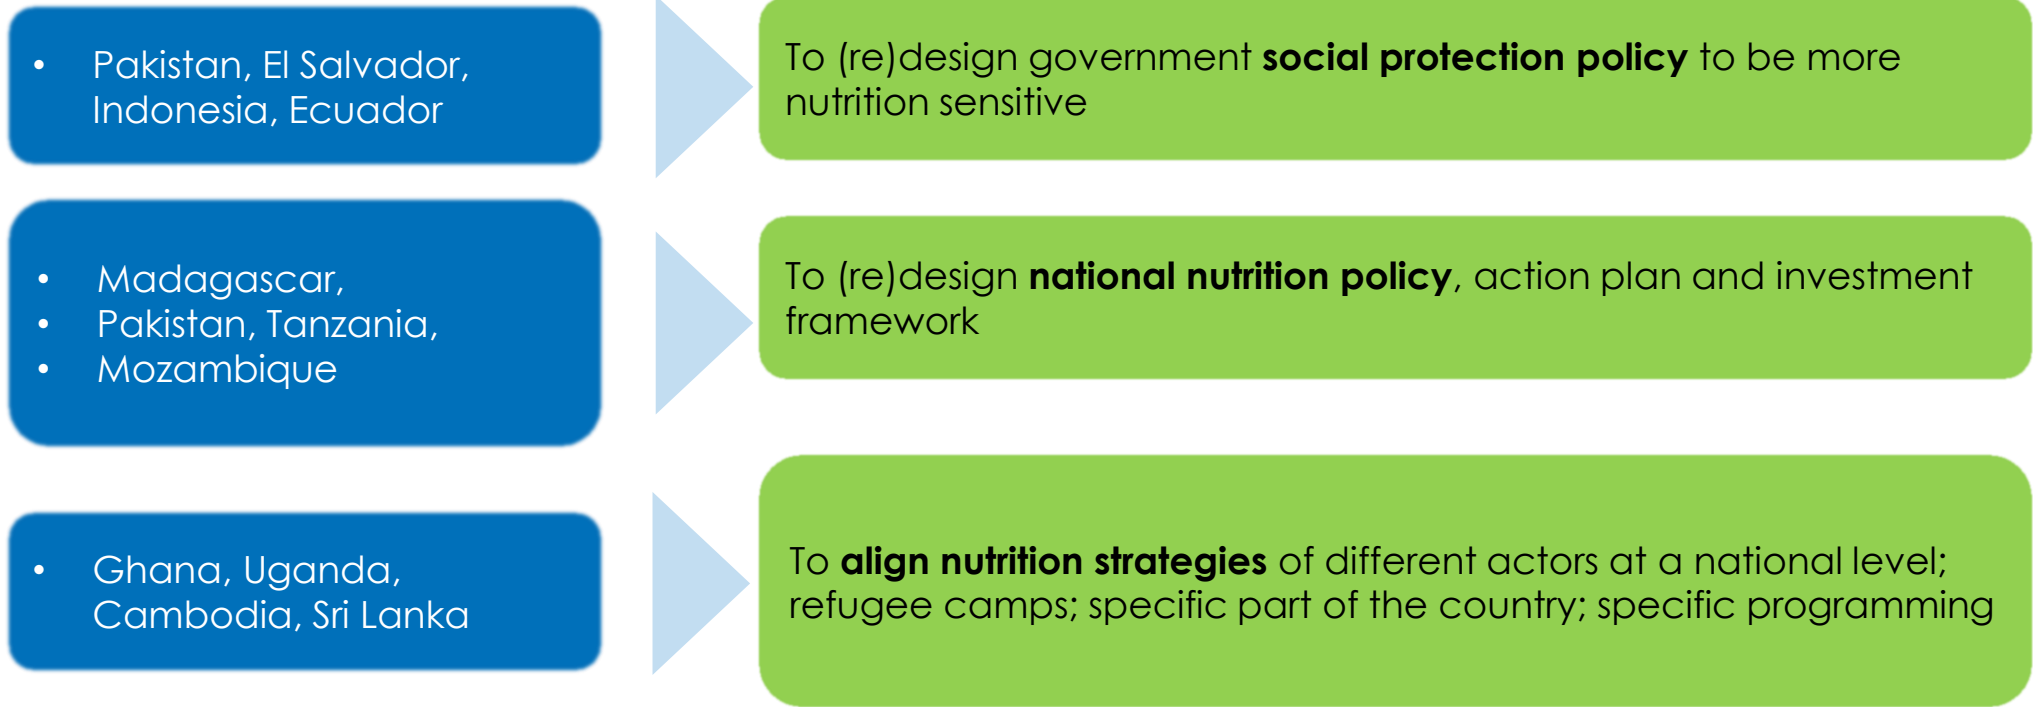

Identify possible interventions & entry points

Estimate minimum cost nutritious diet and economic accessibility, estimate of environmental footprint of diets

**Intervention modelling by region**

# Why FNG

## How have FNG results informed national processes?

# Deliverables

In the form of a national report –

1. Minimum cost of a nutritious diet – regionally
2. Affordability of the cost among households
3. Environmental footprint of current and recommended diets
4. Evidence for –
  - Aiding synergetic implementation among stakeholders in building consensus on priority interventions and policy options
    - *Improve availability, access and affordability*
    - *Promote shifts toward diets that mitigate climate and water crises while meeting nutrient*

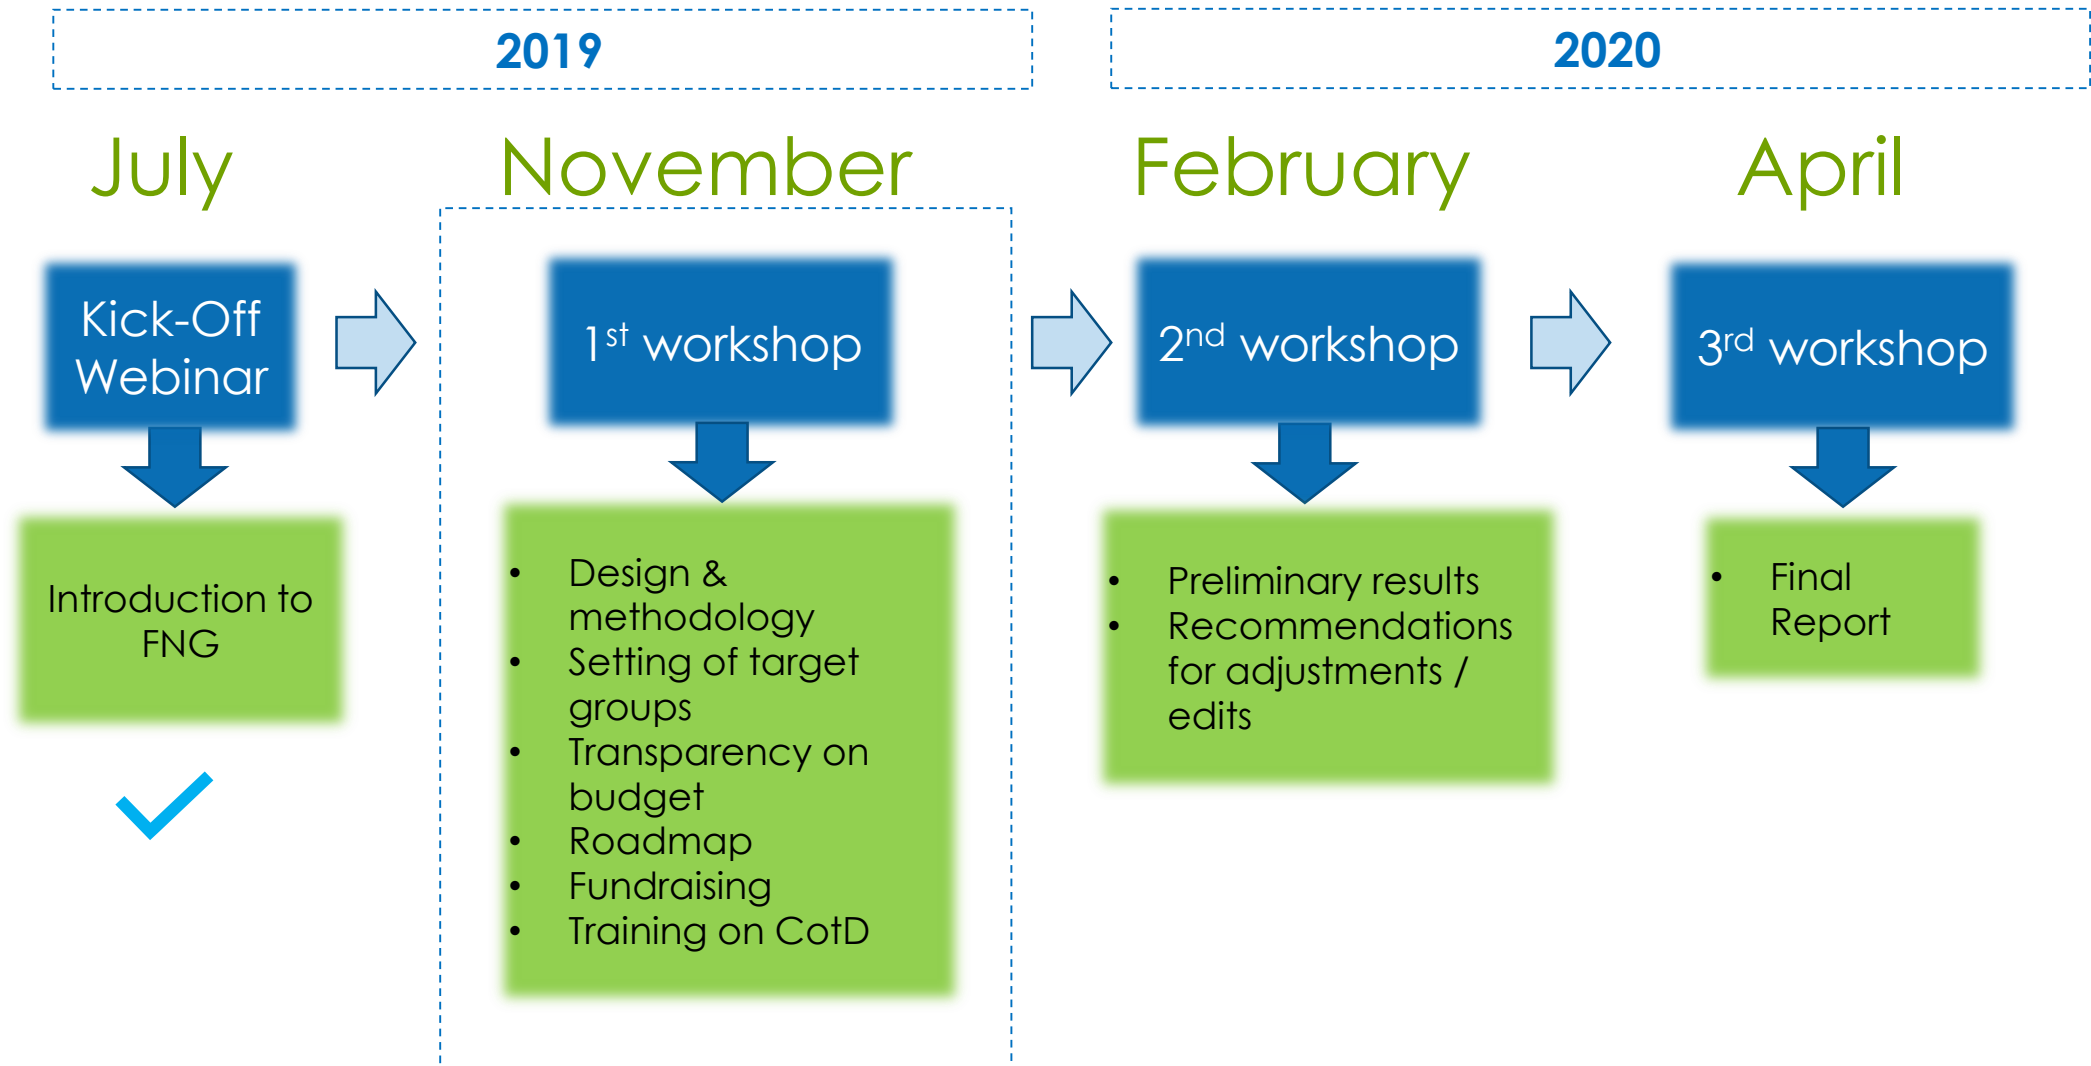

# Funding

- 100K secured
  - Initiation & staff salary
  - Conduction of workshops
  - Publication of final report
- Additional funding
  - Dissemination at regional level ?

KFW

# Roadmap

# Current/Planned Interventions

## Health

Micronutrient supplementation (IFA, MMT, Vit A & B1, MNP)

## Agriculture/ Private Sector

Improving access to local nutritious foods  
Fortification of staple foods

## Education

School Feeding Program with locally available nutritious meals

## Social Welfare

Cash transfers (conditional)/ increased income. Improving purchasing power

Improving access to Specialised Nutritious Foods for specific target groups

Combinations of targeted interventions as household packages

**Multi-sector dialogue**
